

# FOREHEAD GUN

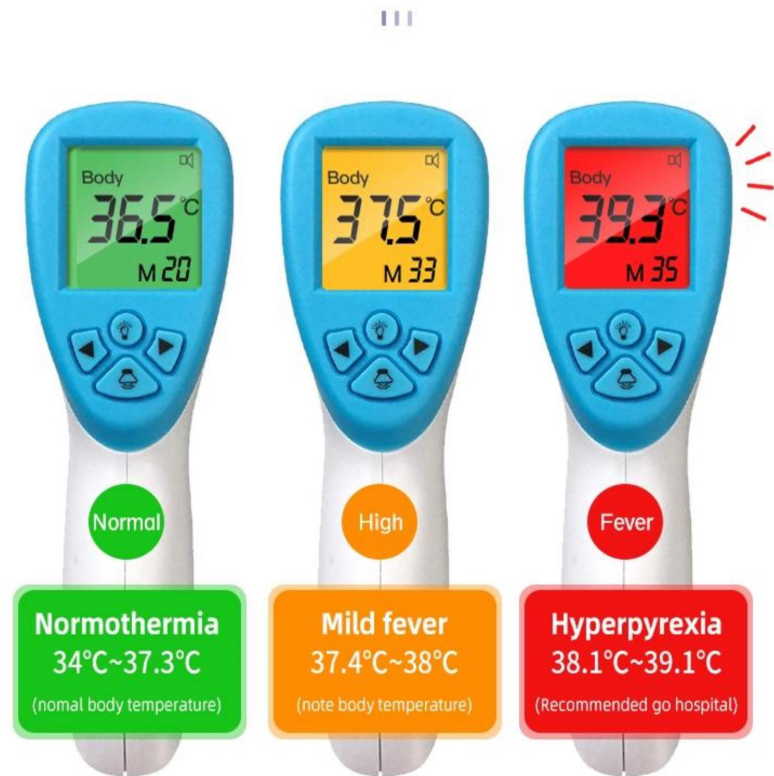

## Product Description

|                      |                                              |
|----------------------|----------------------------------------------|
| Product Dimensions   | 16 * 9 * 4.5 cm                              |
| Application          | Infrared Thermometer for Adult / Kids / Baby |
| Type                 | Body Infrared Thermometer                    |
| Weight               | 100g ( no included Batteries )               |
| Measuring distance   | 3cm-5cm                                      |
| Measurement accuracy | ± 0.2°C                                      |
| Automatic            | about 30s                                    |
| Measure time         | 0.5s                                         |
| Voltage              | DC 3V                                        |
| Usage count          | Press the key more than 100,000 times        |
| Measuring range      | 32~42.9°C fro human body, 0-60°C for objects |

## Smart three color Backlight Reminder

# One Click Switching Of Human/Object Mode

A multi-purpose machine, temperature measurement more convenient, to avoid low temperature, high temperature damage.

Body temperature

Water temperature

Milk temperature

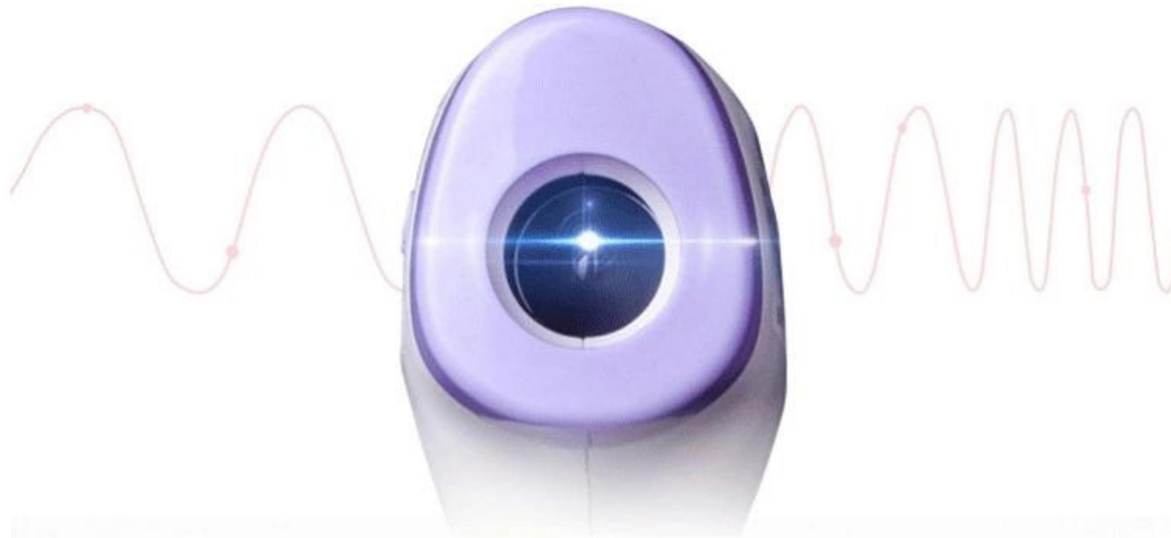

Indoor temperature

# High-Precision Infrared Sensors

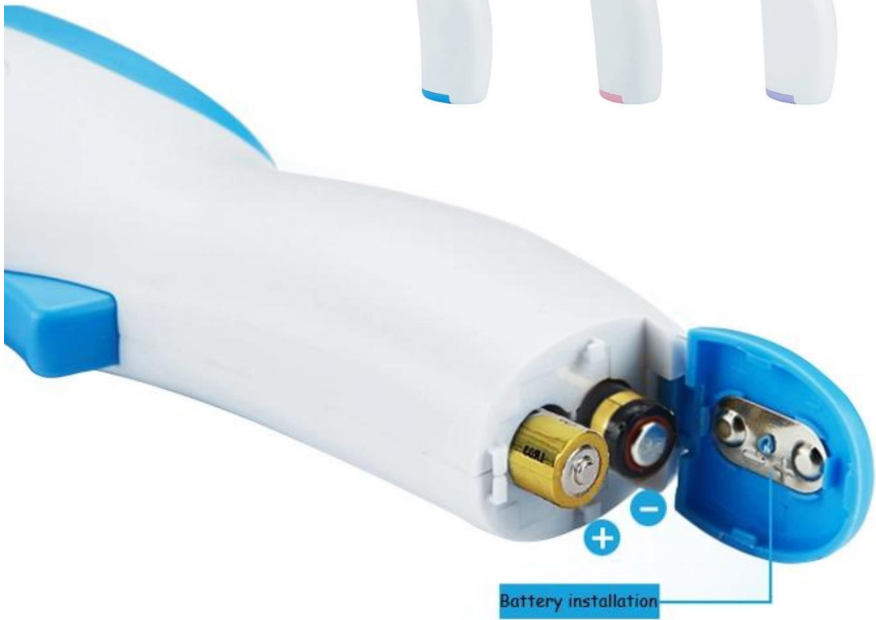

Accuracy: The error is less than or equal to  $0.2^{\circ}\text{C}$

Quality  
inspection

Intelligent  
measurement

Accurate  
calibration

**non-contact  
infrared forehead temperature gun**

**1S Temperature measurement  
32 memory**
